On his arrival in the Colony, the Emigrants should forthwith apply to the Agent of the Company, Mr. Henry O. Hedgeoxe, resioning at Stewartsville, in Denton county, who with at all times be ready to assist him in the selection of his land, and enter the same on books kept for that purpose, and give him a certificate therefor; which certificate will be evidence of his having settled in the Colony in due time.

Dur Graut lies in the North-Eastern part of Texas, between the \$2 ud and \$2 th degrees of Latitude North, and 10th and \$2 nd egrees of Lougitude West, from Washington; beginning on the south side of Red River, at a goint 12 miles east of the False Ouachitta, running thence due South 100 miles, thence East 164 miles to the beginning, having a front on the meanderings of Red River of nearly 300 miles, thence West 164 miles to the beginning, having a front on the meanderings of Red River of nearly 300 miles, thence West 164 miles to the beginning, having a front on the meanderings of Red River of nearly 300 miles, thence west 164 miles to the beginning having a front on the meanderings of Red River and Indules within its limits the upper and lower Cross Timbers, and the head waters of the Branos and Trinty Rivers, the Trinty being uavigable for Steam Boats of light draught, from the interior of the Colony to the Gulf of Mexico, into which it empties, some 25 miles from Galveston, and Red River, to the Mississiphi, affording an onthet for the sarplus productions of the country. Prospectus of the Christian Mirror.

Prospectus of the Christian Mirror.

This paper will be devoted to the discovery, illustration, and defeuce of truth—to the advocacy of whatsoever things are pure, lovely, and of good report. So far as it may be deemed expedient to give it a local character, it will aim more especially, to promote the interests of Apostolic Christianity in Kentucky. But a brief outline of its intended course, can be here sketched.

1. A candid and thorough examination of the questions involved in Church Organization and Co-operation, will be attempted. The Bible Society question will be considered. Much investigation of these subjects is yet demanded. Let no one depiecate discussion. In the midst of society in rapid progress, it is unavoidable, and is to be invited, rather than received. Mothing of these last, skail ever hace a place on the pages of the Mirror. In general, nothing that can be personally offensive to any one, will be admitted, unless the delence of the community against imposture, shall urgently demand it.

11. To furnish entertaining and instructive reading for the younger members of clurches, being not the least important aim of our paper, we shall attempl, for their advantage especially, a brief exposition of the elementary principles, and ultimate aims of the Rebramation.

111. The subject of Education in general and of Female Education in particular, will receive such attention as we may be able to give. Hints, as to the best mode of instructing a family in the Sacred Scriptures, will be offered.

1. V. Condensed reports from Churches and Evangelists, reports of State, Annual, and Co-operation, meetings will be published; and any advertizement required by the common interests of the churches.

V. We shall endeavor to record in a few lines, the principal religious events of the times

VI. But especially, and above all things else, we shall invite our beloved brotherhood forward and upward to the higher grounds of godliness, brotherly kindness, and charity. It is mainly from a desire to accomplish something f

it of a charitable institution, that every friend of the female orplan—that every philanthropist must approve. If our proposition is efficiently seconded, we shall be pleased, if not, we shall
neither be offended, mortified, or injured.

TERMS—The Christian Mirror will be a monthly pamphlet of
twenty four large doudeciano pages, printed with plain type on
good paper, in printed cover—the whole neatly stitched and
trimmed. It will be issued about the first of each month, and
will be mailed to subscribers at One Bellar per year, payable
outhe receipt of the first number, or One Bollar and Fifty
Cents when payment is delayed six months. The first number
will be in every respect a specimen of the work. Should any
one therefore subscribe, and upon the appearance of the work,
dislike it, he can return the number, and his name shall be taken
from the list. This is only fair dealing.

We wish no one to read
or pay for that he does not approve.

The country, therefore, wants at this time, a new man at the head of the Government, free from the baneful influences which control Mr. Polk. That new man is to be chosen at the election for President next fall.

We have a very decided personal choice as to who should be the man. We have equally as decided an opinion as to the man who can be elected. TERRIBLE STEAMBOAT DISASTER.

DEPLORABLE LOSS OF LIFE .- By the arrival of the Childe Harold yesterday, we learned from her officers and passengers of another terrible disaster, by which probably forty lives were lost. The steamboat Yallabusha, from Red river for this port with a full cargo of cotton, was entirely destroyed by fire the night of Tuesday last, the 18th inst. The catastrophe occurred at about 9 o'clock, when opposite the Colege, below Donaldsonville. The following is as full a list of the passengers lost as we have been able to obtain: Mrs. Jane Chamberlin and child, Mr. Nichols and Child. Miss Francis Johnson, Mrs. Bernard and children, Rev. Mr. Page, of Shreveport, and his two children, and a son of Judge Wells.

LEAP YEAR-"PARTE OF THE COMMON LAWE."-This, 1848, is leap year. That is a "fixed fact." What are the relative rights of men and women during this year? Gentlemen during the year, are requried to treat all proposals made to them without slight or contumely-behave with becoming modesty to be amiable, passive, yielding-under severe pains and penalties. "The ladies have the sole privlege during the time it continueth, of making love unto the men," and this "they may doe either by wordes or lookes, as unto them it seemeth proper." Those concerned will see to it, that all things are done decenty and in order. Here is an authority, quoted by the Baltimore American, from an old volume published 42 years since, entitled "Courtship, Love, and Matrimony," which places the matter beyond dispute:

"Albeit, it is nowe a parte of the commom lawe, in regard to the social relations of life, that as often as every bisextile year doth return, the ladies have the sole privilege during the time it continueth of making love unto the men, which they may doe either by wordes or lookes, as unto them it seemeth proper: and, moreover, no man will be entitled to the benefit of clergy who doth refuse to accept the offers of a ladye, or who doth in any wise treat her proposal with slight or contumely."

JANUARY. 28. 1848.

The Whigs of Warren county met at Bowlinggreen on the 24th of January, ISAAC SMITH, Esq. in the chair, and A. G. Hossox Secretary, for the purpose of appointing delegates to the Gubernatori- ed. Let us examine them dispassionately, and al Convention, to be held in this place on the 22d when a selection is made, all will unite cordially of February. The delegates were uninstructed; but and magnanimously in his support. WARNER L. UNDERWOOD, Esq., was earnestly recommended to the people, as a suitable candidate for Lieut. Governor.

Gov. WHITCOMB, of Indiana, declares in his message to the Legislature, that the cause of the war is, that Mexico did not pay the debt due to our citizens; yet the same message states the fact, that Indiana

week very much enlarged and improved, and in a make the race. As to the distinguished gentlemen new and handsome dress. The Intelligencer is a who are spoken of for those offices, I have, of course, good Whig paper, and we hope the editor may re- no preference which I will not cordially yield to the ceive such an accession to his list, as will fully choice of the proposed convention; but I have a compensate him for the additional expense incurred word or two to say in relation to one gentleman in the late improvement.

VERY SUPERIOR TOBACCO.-We have received from our friends MILLS & STEELE, Hardware and Grocery Merchants, on Ann street, near Broadway, integrity, right at all times on politics; seldom wrong a specimen of very superior Virginia Tobacco. It in his notions about any thing-a gentleman of a is truly a superior article, and the chewers of the weed, cannot do better than to call and try it.

WHIG NATIONAL CONVENTION.

We have on several occasions, heretofore, given our views in regard to the propriety of a National Whig Convention, for the selection of candidates for the Presidency and Vice Presidency. We have said that we believe the nomination of a Whig National Convention, absolutely necessary to the success of either one of the distinguished gentlemen whose names have been before the public for the first office. We have seen nothing to shake our opinions heretofore formed; but, on the contrary, much to strengthen and confirm them. Personal preserences, differences of opinion in regard to the availiability of particular candidates, can only be reconciled through the instrumentality of such a body. The following, from the pen of the Washington correspondent of the Philadelphia North American, we commend to the attentive consideration of the Whig party:

I have taken some pains to inform myself personaily, of the views of every gentleman whose name has been used in connection with the Presidency, and I have authority for saying, that Mr. Clay. Judge McLean, Mr. Corwin, Mr. Clayton and Mr. Crittenden, regard a convention as indispensable to the organization and success of our arty in the approaching canvass. The States of Massachusetts and New Hampshire, which nominated Mr. Webster, made provision for the ap pointment of delegates to a National Convention, and in one of them, at least, if my memory is not at fault, some of the delegates have already been elected.

Before Gen. Scott embarked for the command of the army, he repeatedly expressed himself in favor of a Convention, and he never entertained a doubt of the wisdom of such a proceeding. It was through that agency alone that his friends expected to bring him forward as a candidate. Much has been said of the position of Gen. Taylor in regard to this question. I wish I was free to speak of all that is within my knowledge; but this I can say, and do say emphatically, that his immediate advi sers look to a Convention for his nomination; that he does not discountenance their views, and that he will accede to whatever course is adopted. On this matter, I speak from the book, and cannot be mistaken by possibility, for I have seen the evidence and satisfied myself. I could make this expression much stronger, but confidence restrains me. So much for the attitude of the candidates themselves. Let us now pursue the enquiry in another direction.

I have made it also a duty to inform myself of the State of sentiment among the Whigs in Congress on this subject by personal communications with the members, and I undertake to state positively, that fully nine-tenths of both Houses are not only favorable to a Convention, but regard it as of paramount necessity. I know of no man who is directly opposed to it, and I know only of a few from the South who doubt its expediency. There may be some others, scattered among the different States,

who hold similar opinions. Here then is the opinion of the candillates, and of the Whigs of Congress, in favor of a Convention. Why then should it be resisted elsewhere, without some satisfactory reason! But there are other considerations even of higher importance than these opinions, and the first of them is, that a Na-Whigs, who are forced to look at propositions practically, and to analyze the details of a canvass. My experience in the contest of 1844, during which time I was associated with the Congressional and National Committee in this city, warrants the assertion, that without a perfect and harmonious organization, such as can only be perfected through a Convention, we are destined to be again defeated. We had better understand this now than hereafter. We can provide for the danger and promote safety. The Loculocos are already agreed upon their Convention, as a matter of course. Mr. Walker will satisf issue the call whenever he thinks it judicious. They will enter the canvass with every department of the Government against us, with all its vast power and and with every influence that can be conjured up to defeat our candidate and to elect their own, no matter who he may be. A nomination will rally that party to the last man, though Gen. Washingpatronage arrayed, with promises and with threats,

ton should rise from the grave and be offered to the suffrages of the country as a Whig candidate.

Are we never to learn wisdom from experience ! Are we to rush pell-mell into such a canvass, only to have our forces conquered by sections and to meet a compact army, and with scattered troops, each division fighting for itself, and neither contributing to victory! Those who suppose that a President can be elected by "spontaneous combustion," know little of the toil of a canvass or the power of the enemy. We shall require all that energy and organization can do, to succeed in 1848. Let us not conceal the truth, but rather shew it, that we may not be deceived, as to our own strength, and be prepared to combat that of the opposition. We want every soldier in the field, and every honorable appliance, to ensure our triumpl

It is to be hoped that the Whigs of Congress will at some early day fix a period for the assembling of the National Convention-that the States will then proceed, (same have already done so) to elect their delegates and that those delegates will convene together in a spirit of conciliation and select him who is most likely to bear our standard to victory. This will secure a regeneration of the Government-it will restore Whig principles and elevate pure and

honest men. No other course can.

It is but just to the rights of those gentlemen, who have been brought forward as candidates, that their claims should be fairly canvassed and consider-

THE WARREN INTELLIGENCER comes to us this I am, (as we all should be,) for the men who can mentioned as qualified for the office of Lieut. Governor. I allude to the Hon. Joshua F. Bell. I know him better than any other gentleman proposed, and I know him to be a gentleman of talent and high sense of honor-of just conceptions, and energy and ability to advocate and enforce what he con. ceives to be right; plain in his manners; thinks any body as good as himself who is honest; but likes Whigs a little better than any other stock; (and that's the stock now in demand; we need a heap of such stock to stop us from killing up the cattle in Mexico.) Be assured, therefore, that Joshua F. Bell, will facilitate the progress and success of the Whig ticket, I care not who else may be on it. I speak so far as I know and have heard in these hills, out of which, the 6th Congressional District is mostly formed. I have frequent occasion to be in Mr. Bell's Congressional District, at least a portion of it, and find that he is the favorite of the farmer, and the idol of the boy; he can go it certain, others may, but he can. ANSWER TO J. S. J. I see, my friend, you're out this morning, With your usual friendly warning;

You say, I've made a broad assertion. Which can't be proved by my exertion; Perhaps to you I may not show it, For fear you're not prepared to go it; But look around throughout the State, And see the improvements made of late, Which make the Patriot's feelings glow. To see his State in grandeur grow. It is not now, (nor never will.) Like people used to go to mill, Whilst in the bag to hold it on, And when they made communication. It took them moons to cross the nation; But now with lightnin 's speed will fly. To every land beneath the sky. But I am stretching out too long, My answer to your pleasant song, You ask me, did I vote for Licking, You'll pardon me, my friend, for sticking A little in the bark, like Van, Who does not always show his hand.

NY, No. 29, WALL STREET, NEW YORK.

THIS Company, which confines its business exclusively to Life Insurance, has now been in operation two years and a half, during which period it has issued 152 policies, and for the first eighteen months it experienced no loss. Its losses for the whole time have been less than \$18,000—leaving an accumulation of about \$65,000 on hand, beyond the payment of claims and expenses. This, added to the original suaranty capital of \$50,000, places the security of the Company on a basis so solid as no longer to admit of a rational doubt.

All its profits accrue to the credit of the dealers, a nd are divided annually among them, whether the policy be issued for a limited period or lor the whole term of life, a feature unknown in the charter of any other Mutual Life Insurance Company incorporated by this State.

TENTUCET MILITARY INSTITUTE.

This Institution, created by an Act of the General Assembly will be opened for the reception of Pupils, On the 1st of March, 1847, under the immediate direction and entire control of a

Board of Visitors, Appointed by the Executive of the Commonwealth.

Appointed by the Executive of the Commonwealth. It contemplates a Military Organization for Literary and Scientific purposes; an education eminently scientific and practical; the formation or regular habits, and the diffusion of a knowledge of Military Science.

Military duties will not be permitted to interfere with the pupil's progress in study, but will rather take the place of his unprofitable, and often vicious play.

The course of study adopted, and which will be required in order to graduation, is that usually taught in the best Colleges, except that but one language is required, (latin or French,) the time usually occupied by the second, being devoted to a more extended course in Mathematics, Natural Science and English Literature.

tended course in Mathematics, Natural Science and English Literature.

A Preparatory Department is organized in connection with the Institute, in which boys of any age are taken, and are subjected to the same Military discipline as the Cadets.

The position of the Institute, at the Franklin Springs, near Franklort, Kentucky, (recently occupied by the Franklin Institute, is admirably adapted in every respect to Academical pur poses; the locality being airy and healthy, the mineral waters satubrions, the buildings elegant, extensive and commodious, and entirely apart from the contamination and unitupled malign influences, which seem inseparable from a city or village resudence. The Institution is placed under the charge of Col. R. T. P. ALLEN, as Seperatorenders, who has been brought prominently before the public, as a competent and successful teacher and governor of youth, by his honorable graduation at the United States Military Academy; his subsequent connection with the Army, and with the Engineering Service of the General Government, as Superintendent of public works; by his long experience as an Instructor, by his recent connection with the Transylvania University.

The Academic Year will be divided into two Session of twenty one weeks each.

The first commencing on the 1st Monday in October, and the second on the 1st Monday in March. The only vacation occupying the months of August and September.

The month of July will be spent in an excursion tarough the State, for the better study of its Geology and of Natural Science

generally.

Applicants for admission, on paying the charge of the Institute and presenting a certificate of good monal character, will be admitted into the classes as their advancement may justify, and upon satisfactorily passing the next examination thereafter, will be entitled to a warrant of appointment, as Cadet, from the Governor. The uniform of the Cadets is plain and neat, and being o Kentucky Jeans, will greatly reduce the expense of their clothing

Dr. Penney's Ague Pills.

In presenting the public with this remedy for the most trouble some of Western diseases, I am not unapprized of the opposition that it will at first meet; for the community has suffered much by the impositions and frauds practiced by the getters-up and venders of patent nostrums, specific remedies, and medicines professing to cure all diseases. So much have the people suffered from such infractions ou their credulity, that it would seem foolish in any one, at this day, to introduce a specific for any Disease; but I do it, and do it too, sanguine of success. Having had ample opportunity to test the efficacy of the Ague Pills now presented to the public, I do assure it, that they have never failed to cure in one solitary case where the directions were strictly observed.

They seem equally as well adapted to Agues of loug standin as more recent ones. I could adduce a great many certificate in support of what has been said above, as regards their success. but that would swell, unnecessarily, this publication A few r spectable witnesses are worth a host that are otherwise. This is to certify, that I have been selling Penney's Ague Pills, as local Agent for this place since some time last spring; and nevery solitary instance that has come to my knowledge, they have succeeded in curing the f'hills and Fevers.
